SUBJECT INDEX

Vol. 53 (1962)

Alkylating agents, permeability of tumor cells to 73

Amine, methyl-bis(2-chloroethyl)-, N-oxide, mechanism of natural and acquired resistance to, in ascites tumors.....73

Amino acid nutrition and protein metabolism, Host-tumor relationship 81

Aminoazo dyes, carcinogenic; nature of binding of, with liver proteins.....285, 293

Aminopeptidase in the mouse skin in experimental carcinogenesis, histochemical observation on.....17

Analysis, Electrophoretic, of a crude oncotrephin preparation from human hepatoma...67

Antisera, effect of, on human cells in tissue culture 349

Antitoxin, tetanus, production of..... 309

Ascites tumor, Mechanism of natural and acquired resistance to methyl-bis(2-chloroethyl)amine N-oxide in.....73

————, Ehrlich, cells. Cytolysis of, in contact with normal human serum... 145

————, Ehrlich, cells. Glycolytic activity of..... 195

————, Ehrlich, cells. Membrane potential of 41

Assay, bacteriophage neutralization, determination of serum properdin levels in neoplastic diseases by 129

Azobenzene, 3′-methyl-4-dimethylamino-, transplantability of liver cancers induced in rats fed with..... 325

————, 4-dimethylamino-, development of liver cancer in the rat by the initial feeding of 247

————, ————, effect of other carcinogens on the carcinogenesis of..... 259

Bacteriophage neutralization assay, determination of serum properdin levels in neoplastic diseases by 129

Bone formation during transplantation of an experimental osteogenic sarcoma..... 319

Cancer of the glanduiar stomach in rat, induction of..... 381

Carcinogenesis, experimental, histochemical observation on aminopeptidase in the mouse skin 17

Carcinogens with different actions, combined effect of.....247, 259, 269

Carcinogenic action of 6-chloro-4-nitroquinoline 1-oxide on the rat skin..... 167

———— activity of 2-acetamidofluorene and related compounds, relation between the electronic structure and 25

———— experiment with 4-nitroquinoline 1-oxide in guinea pig 377

Carcinoma, human primary gastric, DNA content and chromosomes in..... 123

Catalase epression by toxohormone, mechanism of 183

Cholanthrene, 20-methyl-, effect of pretreatment with, on carcinogenesis of 4-dimethylaminoazobenzene in rats 259, 269

Chorionic villi, normal, and hydatidiform moles. Chromosome constitution of..... 101

Chromosome constitution of hydatidiform moles and normal chorionic villi..... 101

————, DNA content and, in human primary gastric carcinoma 123

Coenzyme Q (Ubiquinone) in neoplastic tissue 171

Cytochemical studies on the effect of antisera upon human cells in tissue culture... 349

Cytological effect of nitrogen mustard N-oxide in rat ascites hepatoma 225

Cytolysis of Ehrlich ascites tumor cells in contact with normal human serum..... 145

DNA content and chromosomes in human primary gastric carcinoma..... 123

Electron microscopy of precancerous lesions in mammary glands of mice 107

Electronic structure and carcinogenic activity of 2-acetamidofluorene and related compounds 25
Ehrlich ascites tumor cell, membrane potential of 41
———————, glycolytic activity of..... 195
Embryonal hepatoma, histopathological study on 7
DL-Ethionine. Functional activity of reticuloendothelial system and quantitative histology in liver of rats ingesting..... 235
Fluorene, 2-acetamido-, and related compounds. Electronic structure and carcinogenic activity of.....25
Gastric juice protein in disorders of the stomach..... 275
Glycolysis, respiration, and ^{32}P-incorporation into nucleic acids in cultured Yoshida sarcoma cells 59
Glycolytic activity of Ehrlich ascites tumor cells 195
Gray bodies in Chiba sarcoma cells 95
Guinea pig, carcinogenic experiment with 4-nitroquinoline 1-oxide in..... 377
Heat-labile factor, the nature of, in Ehrlich ascites tumor cells..... 145
Hepatoma, ascites, transport of nitrogen mustard N-oxide through cellular membrane in rat..... 225
————————, embryonal, histopathological study on 7
————————, human, crude oncotrephin preparation from 67
Host-Tumor relationship, with reference to nitrogen metabolism.....81
Hydatidiform moles and normal chorionic villi, chromosome constitution of..... 101
Hydrolysis, enzymatic, effect on toxohormone activities..... 365
Hyperplastic nodules, constant association of virus-like particles with, in precancerous lesions of mouse mammary glands... 107
Immune response in tumor-bearing patients and animals..... 309
Immunological activity of serum albumin of patients with carcinoma..... 159
Isothiocyanate, α-naphthyl. Functional activity of reticuloendothelial system and quantitative histology in liver of rats ingesting 235
Liver factor, carcinostatic. Discrimination from liver ribonucleic acid..... 1
Liver cancer, development of, in the rat by feeding 4-dimethylaminostilbene following initial feeding of 4-dimethylaminoazobenzene 247
————————, transplantability of, induced in rats fed with azo dye..... 107
Mammary glands of mice, electron microscopy of precancerous lesions in..... 107
Mucus, visible, of gastric juice in disorders of the stomaach, pathological-physiological characteristics of..... 275
Neoplastic diseases, serum properdin levels in..... 129
———————— tissue, ubiquinone in..... 171
Nitrogen mustard N-oxide, transport of, through cellular membrane..... 225
Oncotrephin, crude, preparation from a human hepatoma 67
Peptide structure and immunological activity of the serum albumin in carcinoma... 159
Permeability of tumor cells to alkylating agents.....73
Polar dyes, purification and physicochemical properties of.....285, 293
Polyoma virus, salivary gland tumors induced in DDO mice 207, 217
Potential, membrane, of Ehrlich ascites tumor cell.....41
Precancerous lesions in the mammary glands of mice..... 107
Properdin levels, serum, in neoplastic diseases 129
Protein, gastric juice, in disorders of the stomach..... 275
————————, liver, nature of binding of carcinogenic aminoazo dyes with 285, 293
———————— metabolism, as factor in host-tumor relationship.....81
Pulmonary tumors, induction in rats by

injection of 4-nitroquinoline 1-oxide 303
Quinoline, 4-nitro-, 1-oxide, carcinogenic experiment in guinea pig 377
————, 4-nitro-6-chloro-, 1-oxide, carcinogenic action on the rat skin 167
————, 4-nitro-, 1-oxide, induction of pulmonary tumors in rats by subcutaneous injection of 303
Rat skin, carcinogenic action of 6-chloro-4-nitroquinoline 1-oxide on 167
Resistance, natural and acquired, to methyl-bis(2-chloroethyl)amine N-oxide in ascites tumors.....73
Respiration, glycolysis, and ^{32}P-incorporation into nucleic acids of cultured Yoshida sarcoma cells 59
Reticuloendothelial system, functional activity of, in the liver of rats ingesting DL-ethionine, thioacetamide, or α-naphthyl isothiocyanate..... 235
Ribonucleic acid, liver. Discrimination of carcinostatic liver factor from 1
Salivary gland tumors induced by injection of polyoma virus in submandibular region of DDO mice.....207, 217
Sarcoma, Chiba, cells. Gray bodies in.....95
————, osteogenic, bone formation during transplantation of 319
————, Yoshida, cells. Glycolysis, respiration, and ^{32}P-incorporation into nucleic acids of 59
Sarcomycin derivatives, effect on solid tumors 371
Serum albumin, immunological activity and peptide structure in carcinoma..... 159
Skin cancers, development of, in the rat by feeding 4-dimethylaminostilbene following initial painting of 20-methylcholanthrene 269
————, mouse, aminopeptidase in, in experimental carcinogenesis.....17
Solid tumor. Effect of Sarcomycin derivatives on 371
Stilbene, 4-dimethylamino-, effect on the development of skin cancers in the rat... 269
————, ————, effect of pretreatment with, on carcinogenesis of 4-dimethylaminoazene in the rat 259
Stomach, glandular, induction of cancer of, in rat 381
Tetanus antitoxin, production in tumor-bearing men and animals..... 309
Thioacetamide, functional activity of reticuloendothelial system in the liver of rats ingesting 235
Tissue culture, effect of antisera on human cells in 349
Toxohormone activities, effect of enzymatic hydrolysis on 365
————, mechanism of catalase depression by 183
Transplantability of liver cancers induced in rats fed with 3'-methyl-4-dimethylaminoazobenzene 325
Transplantation of an experimental osteogenic sarcoma, bone formation during... 319
Tumor, pulmonary. Induction in rats by subcutanous injection of 4-nitroquinoline 1-loxide 303
————, salivary gland, induced by injection of polyoma virus in submandibular region of DDO mice.....207, 217
————, solid. Effect of Sarcomycin derivatives on..... 371
Ubiquinone in neoplastic tissue 171
Virus-like particles, association with hyperplastic nodules in mammary glands of mice 107
———— particles, relation to gray bodies in Chiba sarcoma cells 95
————, polyoma. Salivary gland tumors induced in DDO mice by injection of...207, 217
Visible mucus of gastric juice in disorders of the stomach. Pathological-physiological characteristics of..... 275
Yoshida sarcoma cells. Glycolysis, respiration and ^{32}P-incorporation into nucleic acids of.....59
